Updates on Local Economy

Duty-Free Access to China Does Not Materialize into Increased Exports for Bangladesh- Bangladesh's exports to China reached a three-year low of \$677 million in the last fiscal year, as entrepreneurs couldn't fully capitalize on the duty benefits offered by Beijing. Excluding the earnings during the pandemic-hit 2019-20 period, the receipts for 2022-23 would be the lowest in a decade. The limited variety of export products, along with the lack of intermediate goods and technology items, have hindered efforts to boost exports to China, despite the country offering duty-free entry for 98 percent of listed tariff schedule items.

Record Manpower Export in Bangladesh Does Not Lead to Increased Remittances- During the fiscal year 2022-23, Bangladesh achieved a notable milestone in its manpower export by sending a record 11.37 lakh workers abroad, surpassing the target by over 40% and registering a 15% increase compared to the previous year. However, despite the impressive performance in exporting manpower, the inflow of remittances only grew modestly by 2.75%, reaching \$21.61 billion, which is nearly 13% lower than remittances received two years ago. The discrepancy is attributed to informal hundi operators offering higher exchange rates and the significant number of unskilled workers sent abroad, affecting the overall remittance amount. To address the issue, some experts suggest allowing commercial banks to purchase dollars at higher rates than the current prescribed one. Moreover, there is a call for changes in the education system to create more skilled workers, enabling Bangladesh to capture the market for skilled labor in Europe and the Middle East.
